

Dear Family,

Our February Home Project is very open ended. Your family will 'Start With A Heart' - the supplied paper heart. We are asking that students work with their families to create anything they wish.

Your family might want to choose one of the following ideas or your child may think of something much more creative and meaningful to them!

Sample ideas:

- a heart person with arms, legs, etc.
- a decorated valentine
- a patterned heart
- a heart filled with pictures of things/people they love
- a tissue paper heart
- a heart mobile
- etc...

Please have your child cut out the heart shape and then your family may begin!

Again, enjoy this time with your child as you work together
on 'Start With A Heart!'
